Who We Are

Backflow Prevention Specialists, Inc. was founded in 1981. For over 25 years, we have provided both commercial and residential backflow prevention services in the Greater Bay Area. Our standards of excellence have established us as one of the Bay Area's primary Backflow Prevention companies.

Our dedicated technicians are AWWA certified to provide backflow prevention tests, repairs, installations, and cross-connection surveys.

We provide service on all makes, models, types, and sizes of backflow devices and our dedicated team of experts are available 24 hours a day, 7 days a week.

We are passionate about protecting the water supplies of California and are committed to always provide efficient, trustworthy, professional, expert, service in backflow prevention.
